ABOUT ME

I am a motivated and responsible second-year student at GMU seeking for internship opportunities to expand my knowledge as a software engineer. I love to learn new things and many technologies used in my projects are self-taught. I would love to get some experience working on a project with a team this summer through an internship.

EDUCATION

GEORGE MASON UNIVERSITY
Fairfax, VA

B.S., Computer Science | May 2025

PROJECTS

MOON BOT (DISCORD BOT) | Oct. 2021 - Nov 2021

<https://github.com/kmsungporant/Moon-Bot/>
Python, Azure, Virtual Machine, JSON, Git

- Developed a discord bot using python and Discord API and hosted via Azure using Virtual Machine to run 24/7 for a discord server
- Integrated various features for the server: music player for YouTube, mini games, shortcut commands and more
- Moon Bot is still fully operational serving 40+ members in the discord server

PERSONAL PORTFOLIO WEBSITE | Nov. 2021 - JAN. 2022

<https://minsungK.com/>
Next.js, React.js, JavaScript, TailwindCSS, SASS, HTML/CSS, Git

- Developed a fully functional personal portfolio website for desktop using Next.js, React.js and TailwindCSS
- Hosted on GitHub Pages with the domain provided and managed on Google Domains

TRIVIA GAME (IN-PROGRESS) | Nov. 2021 - JAN. 2022

<https://github.com/kmsungporant/Trivia-Game/>
PHP, XAMPP, HTML/CSS, opentdbAPI, MySQL, Git, Bootstrap

- Developed a trivia game web application that pulls questions randomly from opentdb API
- Integrated a login system where users can register and login to earn points for questions correct which saves to MySQL database
- The user's credentials are hashed and saved in cookies for convenience

EXPERIENCE

BLACKHORSE SOLUTIONS | INTERNSHIP

May 2022 - August 2022 | Herndon, VA

- Worked in a team of 5 to develop a software that would fetch data from a workflow engine, Flowable, to display form data which will allow users to easily fill in data that will be sent back to the workflow engine.
- Worked with React.JS for the GUI Java for back-end.

BONCHON CHICKEN | SHIFT MANAGER

Sept 2021 - May 2022 | Centreville, VA

- Practicing various responsibilities such as creating a friendly environment for the employees and the customers
- Managing and precisely calculating the final revenue gained at the end of the day
